Join us to shape the Future

We are extending a very special invitation for you to attend and actively participate in the **43rd Congress of the International Society of Oncology and Biomarkers** to be held in **Chicago, USA, Hotel CONGRESS PLAZA, 1-6 September 2016**. We have selected the theme of the 43rd Congress to be **'Towards Precision Medicine: From Biomarker Discovery to Novel Therapies**, to provide a platform for all stakeholders involved, to share knowledge, experience and the latest advancements, discoveries and treatments in the field of Oncology. We are expecting hundreds of participants from all over the world, including students, Scientists, Doctors, Nobel prize winners and laboratory medicine specialists amongst other guests.

You can take this opportunity to sponsor, advertise in the program and display products and services to the participants and guests. We invite your staff as well, to join others in learning of the recent developments in cancer research, laboratory and clinical oncology.

If you wish to sponsor us in any way, please inform us as to the interest your company may have in our congress. We will appreciate your response as well as any kind of support you can offer to the Congress and the exhibition.

INTERNATIONAL SOCIETY OF
ONCOLOGY AND BIOMARKERS

ISOBM 43rd Annual Congress Chicago

This meeting is directed at bringing together cancer researchers and clinicians from all over the world to exchange their most current ideas, research findings, and clinical practices to improve cancer treatments. It is of vital importance for researchers to come together to exchange ideas, data, advances and form collaborations. Meetings like this also reduce duplication of efforts so that all resources can go towards making real advances in the treatment of cancer. This collaborative effort helps these front line cancer scientists to rapidly deploy the latest advances in cancer treatments - changing the lives of cancer patients.

Join the Fight Against Cancer!

\$1-\$35.00 helps to defray the cost of the meeting.

\$35.00 buys a student a day pass to the meeting.

\$50.00 pays for food (2 days) for a researcher from an economically challenged country.
